FUTURES

Index to Volume 22

No 1 January/February 1990
No 2 March 1990
No 3 April 1990
No 4 May 1990
No 5 June 1990
No 6 July/August 1990
No 7 September 1990
No 8 October 1990
No 9 November 1990
No 10 December 1990

Articles

Assessing the QUEST for future knowledge: Significance of the quick environmental scanning technique for futures, *Richard A. Slaughter*, 22.2, 153–166

Australia and the Pacific Rim in the 1990s; Probabilities, prospects and challenges, *P. K. Ruthven*, 22.3, 253–271

Bringing it all back home (Essay), *Kevin Robins* and *James Cornford*, 22.8, 870–879

Changing the technological trajectory: Addressing the 'trailing edge' of Australia's historical culture, *Stephen Hill*, 22.3, 272–297

Computer unreliability and social vulnerability, *Tom Forester* and *Perry Morrison*, 22.5, 462–474

Costa Rica's national strategy for sustainable development: a summary, *Carlos A. Quesada-Mateo* and *Vivienne Solís-Rivera*, 22.4, 396–416

Cultural diversity and sustainable futures, *Sam Cole*, 22.10, 1044–1058

Deconstructing and reconstructing the future: Predictive, cultural and critical epistemologies, *Sohail Inayatullah*, 22.2, 115–141

Development policy, technology assessment and the new technologies, *Norman Clark*, 22.9, 913–931

Dynamics of information technology implementation: A reassessment of paradigms and trajectories of development, *James Fleck, Juliet Webster* and *Robin Williams*, 22.6, 618–640

Editorial, *Clare Degenhardt*, 22.1, 2

Editorial, *Richard A. Slaughter*, 22.3, 227–230

The effecting of all things possible (From space to time), I. F. Clarke, 22.9, 951–960

Employment and working conditions in producer services firms (Report), *Amin Rajan*, 22.6, 651–650

The endgame of postmodernism within the momentum of modernity (Essay), *Henry S. Kariel*, 22.1, 91–99

Environment for peace (Essay), *Mostafa K. Tolba*, 22.7, 764–768

1992 and European integration: Opportunities and difficulties in high technology collaboration, *Alfonso Molina*, 22.5, 496–514

Evolution and ecology, *Allerd Stikker*, 22.2, 167–180

Fiction and forecasting (Essay), *Ian Miles*, 22.1, 83–91

Footprints in the sands of time (From space to time), *I. F. Clarke*, 22.5, 515–525

The foresight principle, *Richard A. Slaughter*, 22.8, 801–819

Four phases of information technology: Implications for forecasting IT work, *Andrew L. Friedman*, 22.8, 787–800

Fundamentals of a new economic paradigm in the information age, *Kaoru Yamaguchi*, 22.10, 1023–1036

Fusion of science and culture (Essay), *Mahdi Elmandjra*, 22.3, 321–328

The future as metaphor (Essay), *W. Basil McDermott*, 22.2, 191–202

The future epic of the world (From space to time), *I. F. Clarke*, 22.6, 641–650

The future is another place (From space to time), *I. F. Clarke*, 22.7, 752–760

Future of the Amazonian rainforest, *Ghillean T. Prance*, 22.9, 891–903

The future of the city: Issues for the 21st century, *Graham H. May*, 22.6, 607–617

The future of happiness, *Lorne Tepperman* and *Hilja Laasen*, 22.10, 1059–1070

Le futur: une initiative franco-britannique! (From space to time), *I. F. Clarke*, 22.8, 862–869

Futures for Australia and the Pacific: Economic and geopolitical issues, *Stuart Harris*, 22.3, 311–320

Futures in Australian education: Tacit, token and taken for granted, *Noel Gough*, 22.3, 298–310

The futures of science: The human context of scientific expectations, *C. Timothy McKeown*, 22.1, 46–56

Futures studies in India: Putting down roots (Report), *Satish Seth*, 22.4, 425–427

Futures under glass: A recipe for people who hate to predict, *John B. Robinson*, 22.8, 820–842

Global 2000: Social science, ecology and the Bimillennium, *Bernward Joerges*, 22.1, 3–20

Government and futures research: A survey (Report), *Jan Schoonenboom*, 22.5, 526–528

The greening of European industry: What role for biotechnology?, *Kenneth Green* and *Edward Yoxen*, 22.5, 475–495

Human resources in developing countries, *Eleonora Barbieri Masini*, 22.10, 1037–1043

Integration of scenarios and strategic management: Using relevant, consistent and

likely scenarios, *Michel Godet*, 22.7, 730–739
International cooperation in a fractured global order (Essay), *Francisco R. Sagasti*, 22.4, 417–420
Investing in intelligence?, *P. Caspar*, 22.7, 710–729
It's only a paper moon, *Jim Dator*, 22.10, 1084–1102
The job cycle: A positive approach, *H. G. Jones*, 22.8, 843–861
Labour market effects of new technology, *Egon Matzner, Ronald Schettkat* and *Michael Wagner*, 22.7, 687–709
Letter to the editor, *Daniel Bell*, 22.6, 660
Letter to the editor, *Magoroh Maruyama*, 22.2, 210–211
Mexico 2010: Design, features and progress report, *Antonio Alonso-Concheiro*, 22.4, 355–374
A model of capitalism derived from communication theory, *Gerard H. Fairtlough*, 22.1, 69–77
The myth of the Pacific Century (Essay) *Robert H. Doktor*, 22.1, 78–82
National 21st century studies: Model for an effective approach, *Martha J. Garrett*, 22.4, 339–354
New directions for innovation, *Roy Amara*, 22.2, 142–152
New rules of the globalization game (Conference report), *Michael Gibbons*, 22.9, 973–975
Paradigms of human development (Editors' introduction), *Sam Cole* and *Kaoru Yamaguchi*, 22.10, 999–1001
Peru in the 21st century: Challenges and possibilities, *Gonzalo H. Garland*, 22.4, 375–395
Post-Brundtland discussions (Report), *Michael Redclift*, 22.6, 656–659
Potential influence of the holistic paradigm on the social sciences, *Bart van Steenbergen*, 22.10, 1071–1083
Prescriptive framework for the transfer of appropriate technology, *Christian N. Madu*, 22.9, 932–950
Scenarios for Europe in the 1990s: The role of citizenship and participation (Essay), *Bart van Steenbergen*, 22.9, 951–969
Science, technology and futures for Australia, *Barry O. Jones*, 22.3, 244–253
Second international meeting on 21st century studies (Report), *Ana Irene Solórzano-Mier*, 22.4, 421–424
Semiconductors: Creative destruction or US industrial decline? *Mike Hobday*, 22.6, 571–585
⟨SHIFT⟩ ⟨CONTROL⟩ ... ⟨HOME⟩? Response to Robins and Cornford (Essay), *Ian Miles*, 22.8, 880–885
Should the French fear the year 2000?, *Bernard Cazes*, 22.7, 674–686
Socioeconomic paradigms: Present situation and prospects, *José M. Tortosa*, 22.10, 1002–1012
Soviet economic competition with the developed countries: Past and future, *Tassos Fakiolas*, 22.7, 740–751
Soviet Society: Current trends and forecast scenarios, *Stanislav I. Simanovsky* and *Igor G. Ushkalov*, 22.10, 1013–1022
Space, time and humankind: More a meditation than a thesis (From space to time), *I. F. Clarke*, 22.2, 181–190
The Soviet Union and Eastern Europe: Thinking about their likely future, *W. V. Wallace*, 22.5, 451–461
Star Wars: Locking Mother Earth into an orbiting space prison? (Essay), *Hazel Henderson*, 22.7, 761–764
The success trap: Japan's policy alternatives at home and abroad, *Davis B. Bobrow* and *Robert T. Kudrle*, 22.6, 586–617
Surviving the Terminator: The postmodern mental condition (Essay), *Ziauddin Sardar*, 22.2, 203–210
The technological debacle: European technology policy from a future perspective, *Annemieke J. M. Roobeek*, 22.9, 904–912
Technology development and Japanese industrial competitiveness, *B. Bowonder* and *T. Miyake*, 22.1, 21–45
Tomorrow and tomorrow and tomorrow: Aspects of the history and social development of European Australia, *Humphrey McQueen*, 22.3, 231–243
Vienna Academy for the Study of the Future: Objectives and offerings (Report), *Ervin Laszlo*, 22.5, 528–529
When technology undermines freedom (Conference report), *David Hoekema*, 22.9, 970–973
Whither socialism in the 21st century?, *Igor Bestuzhev-Lada*, 22.1, 57–68
Why the future is not what it was: New models of evolution, *Peter M. Allen*, 22.6, 555–570
